Our Purpose Breastfeeding USA, Inc.

provides evidence-based information and support, and promotes breastfeeding as the biological and cultural norm. We accomplish this through a network of accredited breastfeeding counselors and comprehensive resources for the benefit of mothers and babies, families, and communities.

We believe that it is normal and beneficial for women to interact with, support and encourage each other as they follow the path of motherhood.

We believe that informed decision making helps families to be comfortable and confident in their choices.

We believe in the importance of preserving breastfeeding to whatever degree.

We believe that breastfeeding is the normal way to feed babies.

Recognition by IBLCE

The International Board of Lactation Consultant Examiners includes Breastfeeding USA on its list of mother-to-mother organizations whose volunteer hours will count toward the requirements to become an international board-certified lactation consultant.

Dear Friends,

More babies are being breastfed, and more mothers are reaching their breastfeeding goals because we exist as an organization to offer information and support and advocate for breastfeeding mothers. Communities need **free** breastfeeding support. **Free** of judgment, **free** of misinformation, and **free** from undue pressure.

Breastfeeding USA has been focused on building and sustaining the infrastructure necessary for effective support and training of the Breastfeeding USA Counselor. With over 50 women enrolled in the online Comprehensive Education Course, Breastfeeding USA is on the threshold for a banner growth year. These women represent the next generation of breastfeeding support! You will soon find them in online communities, answering breastfeeding questions via email or Skype and holding in-person meetings at the local coffee shop. Breastfeeding USA Counselors are now helping mothers in 13 states.

Because it's important for us to understand what today's modern woman wants in mother-to-mother breastfeeding support organization, we surveyed over 2500 mothers from all over the country to gather their opinions on how they want to be supported and to assess their needs. We listen!

We invite you to share our journey and...

Patty Jacobs, President

Facebook Fans Feedback.

“Wow I really appreciate you taking the moment to help me!! Thanks so much!”

“5 day (nursing) strike. He nursed this afternoon and all evening. YAY!!! I was so relieved I was crying. Pediatrician and most of my family just told me he was done and essentially to move on but I wasn't done and I knew he wasn't either. Thank you for helping me through this.”
