

As we approach the end of Breastfeeding USA's third year, the Board of Directors would like to extend to you our deepest appreciation for being a vital part of the successes of Breastfeeding USA. More babies are being breastfed, and more mothers are reaching their breastfeeding goals because you are there to inform, support, empower, and advocate for them. Each of you contributes to our mission, either through direct contact with mothers, or by supporting those who do.

"I am deeply grateful to you and many other friends of Breastfeeding USA who have worked so hard and given so generously. Together we are making futures brighter than ever. I hope you will join me in financially supporting Breastfeeding USA. Please [donate](#) now..."

Your Breastfeeding USA Board of Directors,

The mission of Breastfeeding USA is to provide evidence-based breastfeeding information and support, and to promote breastfeeding as the biological and cultural norm.
